
ELECTRICITY SUPPLY CONNECTION APPLICATION

SALTA SIBAYA – MOUNT COTTON

It is important to note that the electricity supply connection application requested below is only applicable within SALTA Sibaya – Mount Cotton.

Site Information:

Erf / Plot number :

Date of electricity supply requested :

Contractor Information:

Top-Structure Building Contractor – Company :

Top-Structure Electrical Contractor – Company :

Top-Structure Electrical Contractor – Representative :

Top-Structure Electrical Contractor – Contact No :

Top-Structure Electrical Contractor – Registration No :

Electrical Installation:

Type of electrical installation : New electrical installation

: Existing electrical installation

: New part to existing electrical installation

Erf / Plot main electrical switch type : Circuit Breaker

: On-load isolator

Erf / Plot main electrical switch number of poles :

Erf / Plot main electrical switch rating : Amps kA

Electrical phases : Single phase
 : Three phase
 Phase rotation : Clockwise
 : Anti-clockwise

Test Results:

Cable insulation resistance test (Megger) : MΩ

Earth loop impedance test at main switch : Ω

No-load voltage at main switch (phase-to-neutral) : R / Y / B Volts

Approved for main electricity supply connection : Yes No
